

## DMS - Vegetation Measurement Schedule

Draft - 3/10/03

John Cissel

**Note:** Remeasurement schedule has been constructed to standardize measurements on the same year of post-treatment development so that measurements are on a comparable basis across the study. Basic measurement schedule is year 1, 6, 11, 16, 21 etc.

### I. Initial Thinning Sites

Site name	Majority harvest completed	Initial measurement (date/growing seasons post harvest)	Stand development (growing seasons post harvest, March 2003)	Reinstall plots (year/growing seasons post harvest, fall 2003)	Remeasure plots (year/growing seasons post harvest)
Bottomline	11-97	9-98/1	5	2003/6	2008/11
OM Hubbard	11-97	9-00/3	5	2003/6	2008/11
